

Company Profile

Address:	H&T Tool Design GmbH & Co. KG Am Meilenstein 8-19 D - 34431 Marsberg / Germany		
Telephone:	+49 (2991) 980 100		
Fax:	+49 (2991) 980 5100		
E- Mail:	info@ht-tooldesign.de		
Internet:	www.ht-tooldesign.de		
Employees:	71		
Workshop size:	2100 sqm in total 350 sqm fully climate controlled grinding centre		
Competence:	high precision parts and modules for tools and machines, grinding competence center for ID, OD, Radii, Jig, and surface grinding, complete tool and machine modules, complete special purpose machines including control, full mechanical (3D) and electrical control design and development capability.		
Products:	metal forming tools made out of tool steel carbide and ceramics, tools for tableting presses, jigs and fixtures for quality control and testing, all kinds of special purpose machines including electrical control, refurbishing and spare part supply for US Baird and Platarg transfer presses.		
Quality:	Certified to DIN EN ISO 9001: 2008		
Environment:	Certified to DIN EN ISO 14001: 2005		
Safety:	Certified to OHSAS 18001: 2007		
Machining Capability:	turning	2 x CNC	Ø up to 600, length up to 1000
	milling	2 x CNC, 3 and 5 axis	600 x 550 x 600
	grinding	3 x OD up to Ø 450 x 1000 4 x ID radii up to Ø 280 x 200 1 x Jig grinder, 500 x 300 x 400 2 x surface / profile, 600 x 250 x 400	
	erosion	2 x CNC wire, 800 x 500 x 400 1 x CNC die sinker, 550 x 500 x 300	
			conventional milling, turning and grinding honing Laser marking
Industries:	Metal Stamping and Deep Drawing Pharmaceutical Industry Powder Processing Industry Plastic Molding Chemical Industry Food and Beverage Industry Ammunition Packaging Industry Battery Industry
